- 1 **having a happy family life**
- 2 **speaking many languages**
- 7 **having lots of friends**

Write three things that would make you feel successful. And give reasons.

- 1 It would be having a happy family life because even though it looks like it is quite easy to achieve it, it is also one of the difficult things to achieve for everyone because of the various factors nowadays.
- 2 it would be speaking many languages, since it is one of my to-do-list or things that I want to achieve. Moreover, I also found that it is quite difficult to remember everything in my brain and I need to pay more attention on it and practice as much as I can, if I want to complete this wish.
- 3 It would be having a good job because my mother always tells me that having a good job is a reward for hardworking people. It also means that I did a very great job in the past and the result of trying hard makes me be able to get good job finally.
