

20 _____

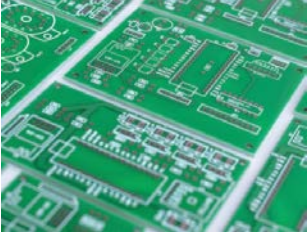

21 _____

22 _____

1 _____

18 _____

19 _____

mobile devices

bandwidth

processor

memory chip

calculating

monitor

icon

shortcut

encryption

artificial intelligence

external drive

coding

operating system

resolution

responsive design

robotics

PCB

pixels

megahertz

telecommunications

programmer

cloud computing

2 _____

3 _____

16 _____

17 _____

14 _____

15 _____

5 _____

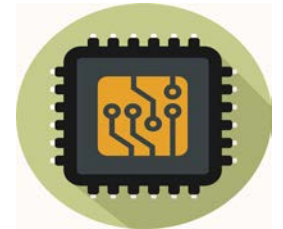

13 _____

10 _____

8 _____

6 _____

12 _____

11 _____

9 _____

7 _____

ICT vocabulary answers

- 1 operating system
2. cloud computing
3. icon
4. shortcut
5. artificial intelligence
6. processor
7. resolution
8. bandwidth (speeds/measurements)
9. memory chip
10. calculating
11. monitor
12. external drive
13. mobile devices
14. responsive design
- 15 programmer
- 16 coding
- 17 telecommunications
- 18 PCB (printed circuit board)
- 19 encryption
- 20 robotics
- 21 megahertz (speed of chip/processor)
- 22 pixels

1. The most popular operating systems are Windows, macOS, and Linux.
2. Cloud computing is the delivery of computing services over the Internet, often known as “the cloud”, offering faster innovation, flexible resources, and economies of scale.
3. An icon is a small graphical representation of a program, file, or action.
4. A shortcut is a quick way to access a program, file, or action.
5. Artificial intelligence is the ability of a computer to perform tasks that would normally require human intelligence, such as understanding natural language and recognizing objects.
6. A processor is a piece of hardware that interprets and carries out the instructions of a computer program.
7. Resolution is the number of pixels in an image.
8. Bandwidth is the amount of data that can be transferred in a given period of time.
9. A memory chip is a piece of hardware that stores information for a computer.
10. Calculating is the process of using a computer to perform mathematical operations.
11. A monitor is a piece of hardware that displays information for a computer.
12. An external drive is a piece of hardware that stores information for a computer.
13. Mobile devices are devices that can be used to access the Internet and to perform tasks such as making phone calls, sending text messages, and playing music.
14. Responsive design is a design that is optimized for mobile devices.
15. A programmer is a person who writes code for a computer.
16. Coding is the process of writing code for a computer.
17. Telecommunications is the process of transmitting information from one location to another.
18. A PCB is a printed circuit board.
19. Encryption is the process of encoding information.
20. Robotics is the branch of technology that deals with the design and operation of robots.
21. Megahertz is a unit of frequency.
22. Pixels are the smallest units of an image.
